Services

Our focus is **Global Talent**, **Business Innovation and Investor** and **Employment Visas**.

Corporate and Employment Visas

For businesses looking to hire overseas talent during skills shortages in Australia, we offer strategic migration advice, migration monitoring and compliance. We support employer nomination visas such as subclasses 482, 186, 494, 191, 407, as well as subclass 400 visas.

Business Innovation and Investment Service

Our aim is to help you thrive and we will support your business through expert advice and insight. Ashton Legal offer migration planning for high-net-worth individuals, the Australian business innovation and investment visa programme including subclasses 188 and 888, expressions of interest and lodgement of state nomination applications.

We have an extensive network of corporate advisors across Australia, including state and territory-based expertise on local programs, to encourage overseas investment. If required, we can also connect you with venture capital and growth private equity funds in the context of required complying investments.

Global Talent Visas 858 (Independent) or through GTE

The Global Talent Visa is one of the most streamlined permanent resident visas and is based on a sustained international record of outstanding and exceptional achievements in key target sectors.

This visa is suitable for start-up entrepreneurs, technological leaders in innovation driven/technology focused target sectors, including Agtech/Agri-food, Circular economy, Defence/advanced manufacturing and space, Digttech, Education, Energy, Financial service/fintech, Health industries, Infrastructure/tourism and Resources.

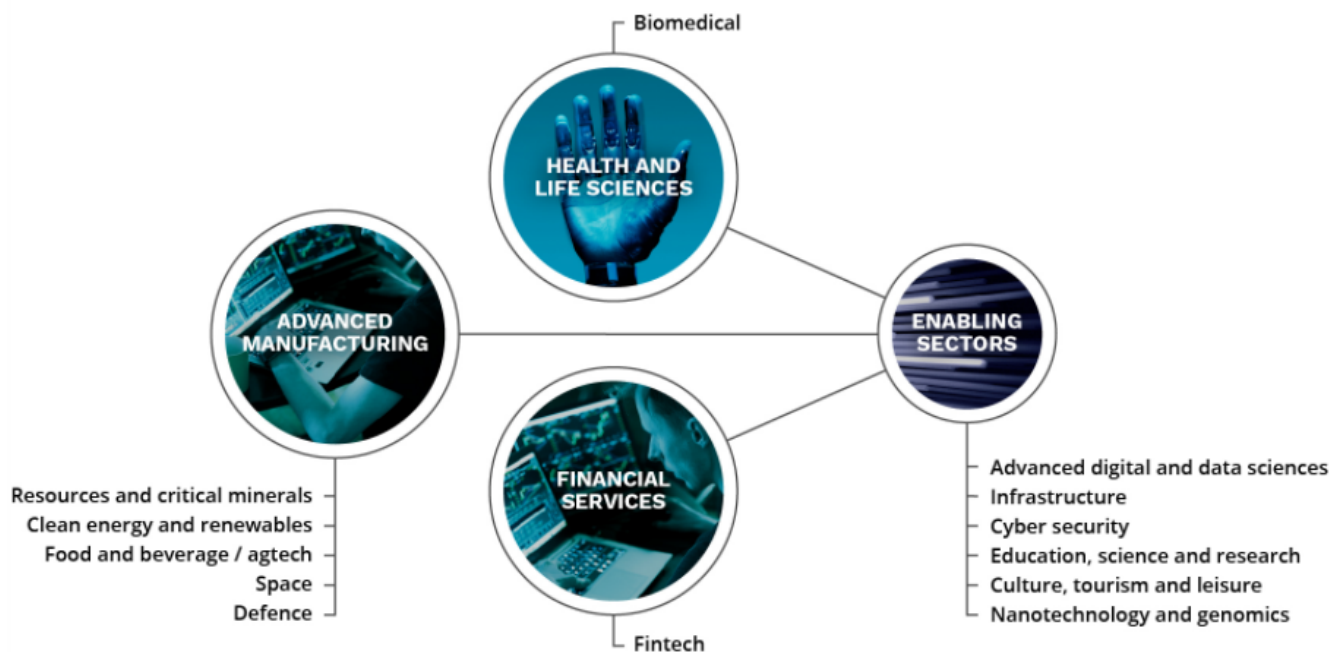

The Global Talent Employer Sponsored (GTES) program allows employers to sponsor overseas workers for highly skilled niche positions that cannot be filled by Australian workers or through other standard visa subclass 482 programmes.
